

Murvi Morello For Sale

UPDATED DETAILS

£20,000

Located in Cornwall, this Murvi Morello is based on a Fiat Ducato 15 LWB with 2.8 ltr JTD, remapped to deliver 160 bhp.

First registered December 2005 (55 reg). MoT Due December 2024.
Last serviced December 2023. 77000 miles.

Cam Belt and CV boot replaced together with 2 new front tyres June 2024

5.6m long 2.0m wide.

TD, ABS & ASR, drivers airbag finished in metallic silver with Lytham Claret (red) upholstery throughout and grey/green carpet.

3 owners and still in excellent condition for its age.

Fitted with the following Murvi options:

- Eberspacher hydronic D5W diesel fuelled cabin and water heating with mains element for water heating.
- Fiamma F45i 3m retractable awning.
- 60 ltr 3 way fridge (gas, 12 and 240v)
- 4 burner hob, oven and grill with external gas BBQ point
- Nature pure water filter
- 6kg gaslow refillable gas cylinder with room for spare cylinder
- Pioneer CD/DVD radio with 4 speakers plus 15" LCD TV with plug in digital receiver.
- Large roof mounted 140w solar panel with Victron MPPT voltage regulator. Allows remote monitoring through Victron App.
- Fiamma rear door cycle rack
- Additional cot that fits across the cab front seats.
- Cruise control and reversing camera
- Thatcham cat 1 alarm
- Highly efficient cab mounted aircon system with outlets into cab and living area.
- Tow Bar and electrics
- Fly screens and blinds for all windows
- 2 rear inertia reel seat belts plus two lap restraints
- Omnistep 700.

A real plus of this design of van is the cabin seating is arranged in such a way as to allow an unobstructed view through the large opening sliding door. This seating also converts to a large double bed using the standard Murvi 'rock and roll' feature. Both front seats can swivel to face inwards. There is ample storage throughout the van.

This van has been regularly serviced. We have had rust issues but these have all been professionally repaired and we have the underneath regularly inspected with the underseal touched up where needed. The clutch was recently replaced and the rear springs have been upgraded from a single leaf to a double leaf.

The interior is still in excellent condition considering its age, a testament to the quality of fittings used by Murvi. The shower room overhead hatch has also recently been replaced.

Most interior lights have been converted to LED and 2 12v sockets have been converted to USB power supply. Domestic power is supplied by 2 batteries located under driver's seat.
